DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II, Species B, claims 62-73 in the reply filed on 01/20/2006 is acknowledged.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 67 and 68 rejected under 35 U.S.C. 102(b) as being anticipated by Rosen et al. 6,085,743.

Rosen et al. '743 disclose a computer program product for operating a hyperpolarized gas dispensing system per claimed invention. The computer program product comprises a computer readable storage medium having computer readable program code. The code comprises code that automatically computer readable program code that automatically transmits control signals to predetermined ones of the remote actuated valves 50, 72, 92,98 (Figure 1) during operation of the dispensing system to cause selected valves to open and/or close at appropriate times so as to selectively temporarily close off at least one predetermined intermediate portion of the gas flow path having a known volume from the remainder of the gas flow path to capture a discrete amount of hyperpolarized gas or buffer gas therein and to then rapidly open to release the captured discrete amount of hyperpolarized gas or buffer gas therefrom.

Rosen et al. '743 intermediate portion comprises first and second intermediate portions having different first and second volumes (Figure 1, portion between valves 50

and 70, and portion between valves 92 and 98). Rosen et al. '743 comprises code that automatically determines and selects the appropriate combination of the first and second intermediate portions to output the desired aliquot amounts of buffer and hyperpolarized gas.

Allowable Subject Matter

3. Claims 62-66 and 70-73 are allowable over the prior arts of record.
4. Claim 69 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. Additional references made of record and not relied upon are considered to be of interest to applicant's disclosure: see attached USPTO Form 892.
